

Steri-7® - Bringing simplicity and peace of mind to infection prevention and control.

S-7XTRA® - Trusted in Australia since 2014

## Hospital Grade Biocidal Disinfectant Cleaner

Proudly made in Australia

Listed with Claims on the ARTG: 232011 and 232014

**EFFECTIVE AGAINST BACTERIA, ENVELOPED AND NON-ENVELOPED VIRUSES, SPORES, MOULD, FUNGI, YEAST, TUBERCULOSIS, PARVOVIRUS AND COVID 19.**

**KIND TO SURFACES.**

Clean and Kill - **One product for all situations.**

- No need for wet contact times - starts to work in 30 seconds in dirty conditions and goes on killing.
- The Reactive Barrier Technology (RBT) which offers residual effectiveness on touched surfaces for 24 hours against bacteria, COVID-19, and yeast with a further 72-hour biostatic surface protection for bacteria and COVID-19.
- Near pH Neutral and food safe.
- No rinsing required. Free from heavy detergent residues leaving streak-free finish.
- Contains multi-actives to reduce the chance of pathogens building resistance.
- Non-Flammable, Non-corrosive and safe to use on any material or surface—including fabrics, stainless steel, plastics, wood, glass, soft metals and medical equipment.

Contact our team who is waiting to assist you with samples, advice and connect you with your local distributor.

Our products have been stringently tested, again and again, to ensure that they deliver the highest levels of efficacy and safety.

- Contact Kill Times - Tested in Dirty Conditions. Times are reduced in clean conditions.

<b>Bacteria</b>	<b>Kill Time</b>		<b>Kill Time</b>
Acinetobacter baumannii	1 min	<b>Virus - Enveloped</b>	
Bacillus cereus	5 mins	Avian Flu H5N1	5 mins

# Diluting and Dispensing

We work with Precision Flow to provide solutions to meet your needs.

# AccuPro

Pressure regulated,  
chemical  
proportioner

The AccuPro line of proportioners delivers dilution accuracy regardless of fluctuations in water pressure. AccuPro pressure regulation technology eliminates dilution variance by controlling the amount of water allowed into the unit, never allowing it to “lean out” the desired dilution target.

- Configurations for many applications- 2, 3, and 4 button, and select valve models available
- Better chemical performance—consistent correct dilution
- Time and labor savings—solutions are prepared accurately with reduced preparation time

Hydro Systems offers many ancillary products that can further enhance the performance of your AccuPro® dispenser.

We can configure the perfect system for your most demanding applications.

AccuPro dispensers can be customized to meet your company’s specific business strategies.

Contact us to discuss all options available.

# Bio-Misting

## What is Bio-Misting?

It is a method of dispensing chemicals and disinfectants via a fine mist which is mechanically sprayed from a bio-misting machine. These can be electric, or battery operated. They can also be hand-held or on trolleys.

## Where has it been used?

**S-7XTRA is used in Australia in all areas listed below currently with the exception of agriculture at this time.**

Bio-Misting is widely used in healthcare, emergency services, childcare, aged care, sporting facilities, public and private transport, hotels and resorts, aquatic centres, retail centres and supermarkets, pest control, farming and poultry management, equine facilities, airports, correctional facilities and recently in heritage restoration works.

## Models

**AEMOOG - 5L Cordless - suitable for large spaces and outdoor areas.**

**AEBURE - 3L Electric - 6m cord. For indoor spaces.**

**AEUPGUN - 12.8L Cordless Backpack - suitable for large spaces and outdoor areas.**

## Car Care

**AEBMHAND - 3L Rechargeable Hand-held. Suitable for vehicles**

**S7X250CC - S-7XTRA Car Care Kit. 250ml spray with microfibre cloth.**

# S-7XTRA® Hand Hygiene from Steri-7®

Proudly made in Australia

**Hand Hygiene** is the most important thing you can do to stop the spread of infections. It is simple: Wash your hands as often as you can with soap and water.

When water is not close at hand; we recommend using **S-7XTRA® Hand Rub**.

Complies with W.H.O and EN standards for Hand Hygiene as antibacterial.

- Dermatologically Tested and non-perfumed.
- Alcohol Free and non-flammable.
- Contains natural moisturisers which protect skin cells from environmental stress, dehydration and that maintains skin integrity.
- Works in dirty conditions and remains effective for up to 3 hours.
- Safe to use in sensitive environments where *alcohol can be an issue*.

S-7XTRA® Hand Rub is available in the following formats:

	<b>S7HR5L</b>	<ul style="list-style-type: none"><li>• S-7XTRA Hand Rub 5L Refill</li><li>• Available in single units or carton of 4.</li><li>• Made to refill bottles or dispensers.</li><li>• Proudly Made in Australia.</li></ul>
	<b>S7HR600</b>	<ul style="list-style-type: none"><li>• S-7XTRA Hand Rub 600ml</li><li>• Available in single units or carton of 10.</li><li>• Desktop size.</li><li>• Proudly Made in Australia.</li></ul>
